WILLIAM C. CASPER
Resident Director

This first edition of the yearbook of the University of South Carolina's Aiken Regional Campus is a demonstration of the growth and progress of the school since its opening in 1961. The outstanding progress of USCA has been made possible by the untiring efforts and interest of the administration on the parent campus, the dedication and excellence of USCA's faculty and staff, and, most importantly, the spirit of the students. Nowhere will you find a more energetic and enthusiastic student body. A very high percentage of the students are not only seriously concerned in scholarly pursuits but are also deeply involved in the many extracurricular activities of the school. As the years have passed, the students and alumni have been the spearhead and driving force that is placing USCA in a position of prestige and importance in the field of higher education in the state.

On behalf of the community and the University, I wish to thank all of you for your very fine representation and participation. You will look back with pride, I believe, to the foundation you are laying for future generations of students.

To the yearbook staff who published this excellent book, an enthusiastic thank-you from USCA.

**WE'RE LOOKING FOR
IMAGINEERS —
CAN YOU
QUALIFY?**

According to the dictionary, there is no such word as "Imagineer" but at S.C.E.&G. it's a different story; Imagineers are the backbone of our company. We define "Imagineer" as a creative engineer with an eye on the future. One who is an innovator. One who is adaptable to change, but yet practical and thorough in his evaluations. It takes more than a degree to be an imagineer . . . can you qualify? Contact our Personnel Department.
